

Rectangle - Miniature Hollow Glass Capillaries (VitroTubes™)

Rectangle - Miniature Hollow Glass Capillary/Tubing (VitroTubes™) are available in a broad combination of Depth (Path Length) x Width and Wall dimensions. VitroTubes™ are supplied in convenient plastic vials for easy handling and storage. VitroTubes™ provide the fastest, cleanest and most convenient method for collecting, viewing and storing liquid samples. Capillary action instantly collects the sample and retains a precision optical path length while viewing at any angle, minimizing reflections and eliminating the need of a cover glass. Samples can be permanently retained for reference by fusing or cementing the open ends.

Standard Tolerances: 10% Depth (Path Length), 10% Width, and 20% Wall

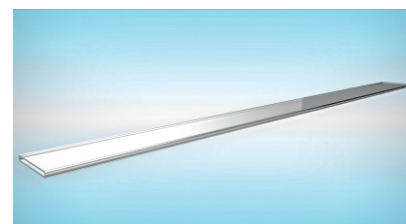

Standard glass types are: Borosilicate

Standard Lengths: 50 mm, 100 mm, 300 mm and 600 mm

Standard End Finish:

Snap Cut Products: 5001, 5002, 5003, 5004, 5005, 5015, 5010, 5012, 3520, 3524, 3530, 3536, 2540, 2548, 4905, 4806

Saw Cut Products: 4707, 4608, 4509, 4410

Product	Path Length (mm)	Width (mm)	Wall (mm)	Pcs / Vial
5001	0.010	0.100	0.007	25
5002	0.020	0.200	0.014	30
5003	0.030	0.300	0.021	33
